React.js

Express.js

Node.js

MongoDB

n8n Automation

About Me

I'm a full stack developer with 2+ years of experience building modern web apps using React, Node.js, and JavaScript. I enjoy solving real problems with clean, scalable code. I've launched multiple full-featured apps and keep learning to stay updated with the latest tech.

Experience

Shopify Designer and Developer

riwaya.pk

- Built a full-stack Shopify app that lets users virtually try on products using AI — boosting engagement by 50%.
- Integrated the app directly into Shopify storefronts with real-time camera preview, smart fitting, and ML-based product mapping.
- Collaborated with UI/UX team to ensure seamless experience across desktop and mobile devices.

Projects

AI-Powered Career Development Platform

React, Node.js, Express.js, Gemini

Built a platform for users to get AI-powered career advice. Features resume feedback, skill analysis, and course suggestions powered by ML models and full-stack tech.

Real-Time Chat Application

React.js, Node.js, Socket.IO, MongoDB

Developed a live chat app with private messaging, user auth, and real-time status. Used WebSockets to keep message latency under 100ms.

Education

Bachelor of Software Engineering

Arid Institute of Sciences, Mandi Bahauddin

2021 - 2025

Focused on software development, algorithms, and full-stack web apps. Completed 10+ hands-on projects including real-time systems and RESTful APIs.
